

One thing I have desired of the LORD, that will I seek: That I may dwell in the house of the LORD. All the days of my life, to behold the beauty of the LORD, and to inquire in His temple.

Psalm 27:4

COVID-19 Relief to temporary shelter at Jagate among the 35 family

After the lockdown across the country, we mostly could not visit one another and have not been able to have fellowship together, but somehow, we have visited and baptised new members in the churches and have even conducted a wedding.

After 4 months of lockdown, people are struggling and suffering for their daily needs. They don't have jobs or businesses. Many people have become frustrated with their lives, and almost 1,600 people have either died by suicide or been killed in high-caste to low-caste violence; we have widespread discrimination by caste. We are praying for relief that is really needed, especially the village people of the mountain hilly area.

At this moment, the pandemic crisis in Nepal is facing several matters.

1. The COVID-19 pandemic: Nepal is one of the riskiest countries around the world. The virus is spreading all over Nepal. Cases increase by 500-700 people every day. The people of Nepal are really worrying and fearful.
2. Other pandemics: Recently, the locusts are spreading across whole parts of Nepal and destroying the crops. This is another challenge for our country. The Nepal government does not have sufficient supplies of medicine equipment and other resources.
3. Daily needs: The village people need help for their daily needs. We have to help more than 380 families across our churches.
4. Natural disaster: Recent floods and landslides destroyed over 500 house and killed over 100 people, with over 100 people in different parts of Nepal still missing. We are praying for relief those people are affected by flood and landslide.
5. Political problems: The Nepalese people are facing a lot in many areas. For many years, the Indian government has rented and occupied many hectares of land along their border with Nepal. Now there's a big conflict between the two countries and the debate continues to be heated. Life in those regions is not easy to live.
